

CONSTRUCTION & AGRICULTURE

MES delivers premium manufactured parts, including castings, forgings, machinings, assemblies, and stampings to the construction and agriculture markets. Our proprietary processes and global suppliers enable us to provide cost-effective solutions and shorter lead times to our customers.

- ▶ Deliver quick product, and tooling lead times
- ▶ Competitive pricing for all manufactured parts, and tooling
- ▶ Provide high-quality castings, forgings, machinings, and more to many Tier I manufacturing customers
- ▶ Deliver best-in-class global supply chain solutions, domestic warehousing, engineering solutions, inventory management, quality management, and more
- ▶ Provide industry leading, and proprietary processes that deliver cost-effective manufacturing, and global supply chain services
